

*Architected*ERP

Architecting and Delivering ERP-enabled Enterprise Transformation in the Services Era

Mendel Koerts

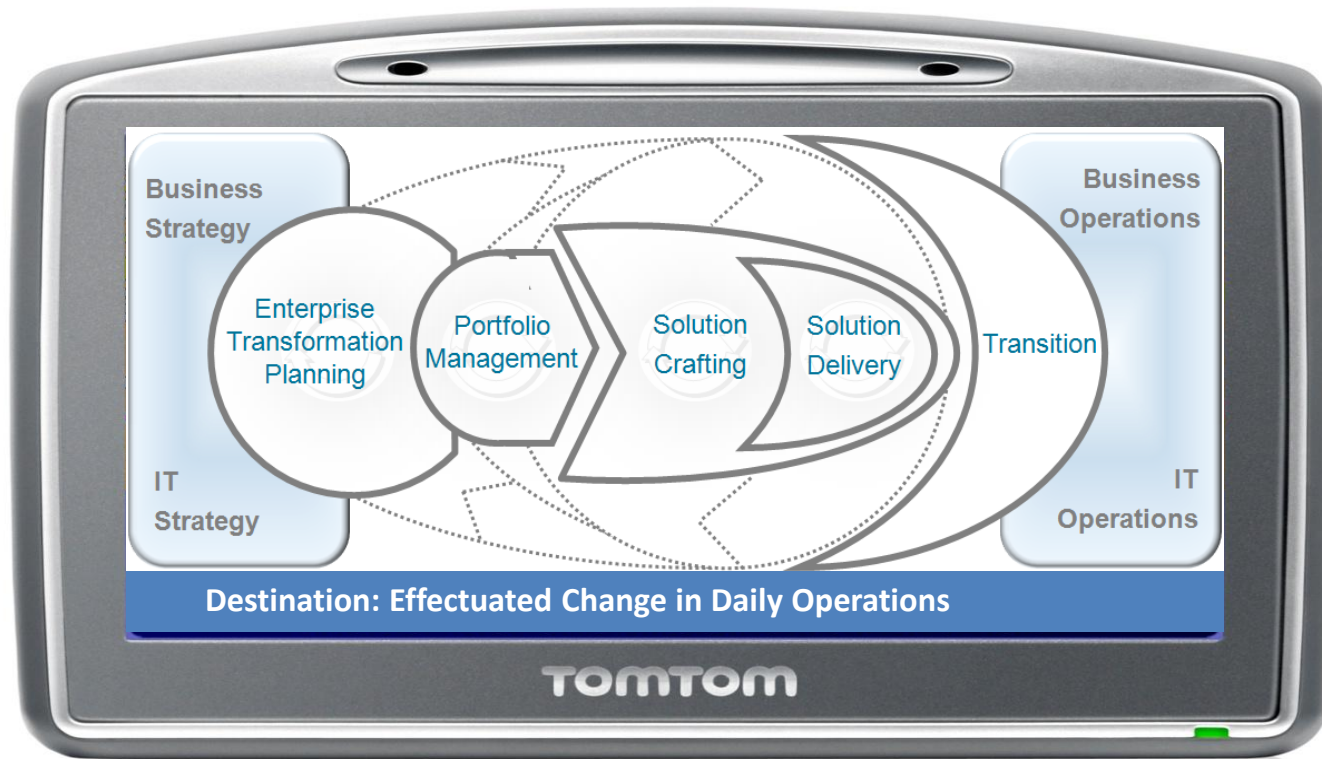

An All-Encompassing Approach To Turning Strategy into Action

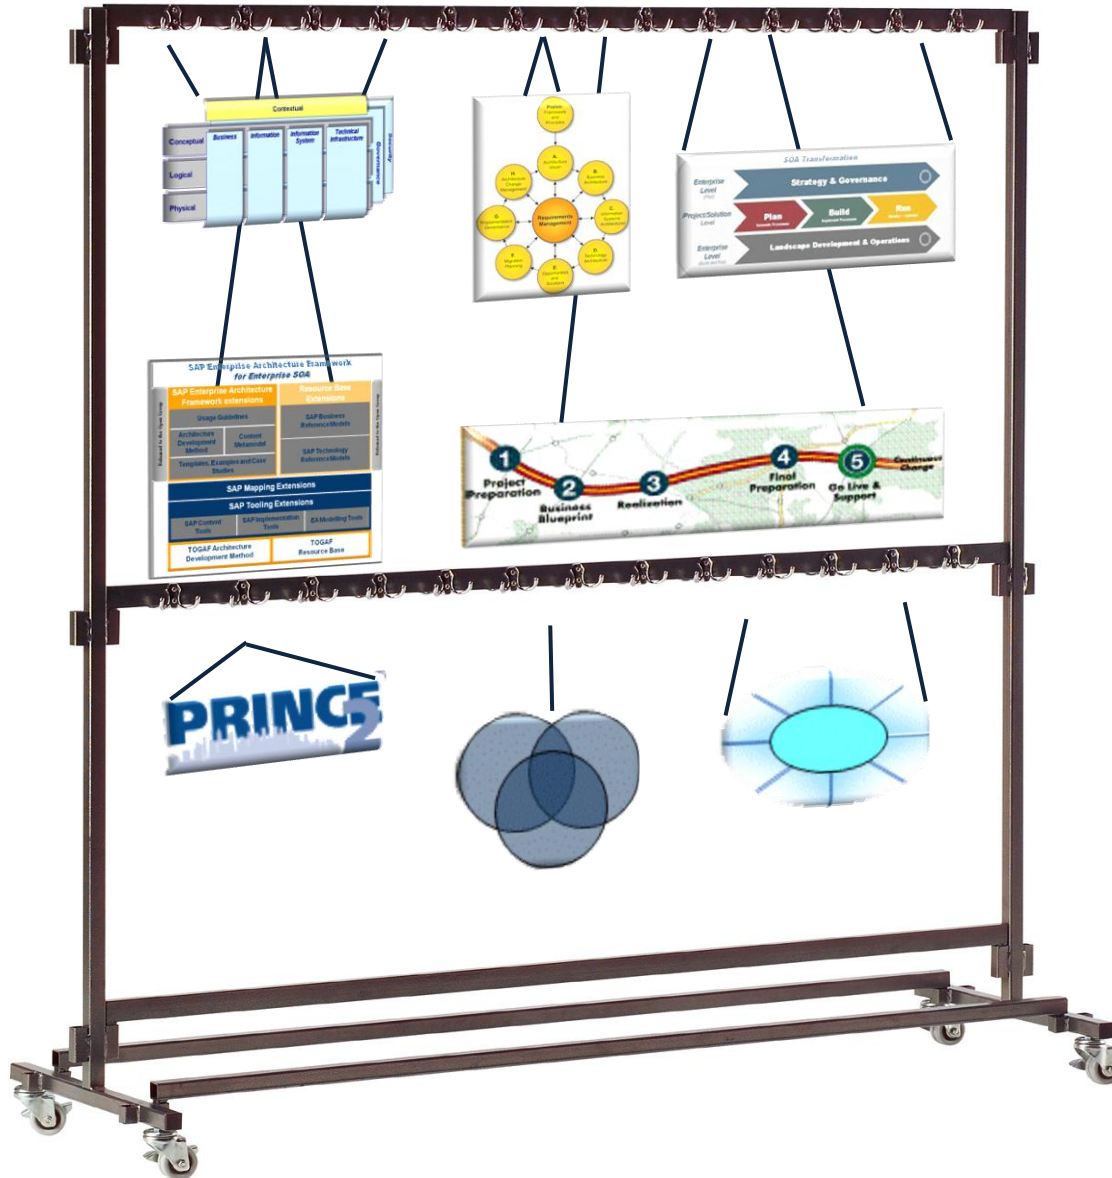

Architecting and Delivering ERP-enabled Enterprise Transformation in the Services Era, *ArchitectedERP* in short, is the name of a multi-disciplinary wall-to-wall approach to Enterprise Transformation, helping you to get from strategic intent to delivered change in daily operations.

It has a special focus on the integral application of the *Services Thinking* concept in the Business and IT domain, specifically ERP-rich ones.

ArchitectedERP: an integrated and end-to-end framework for turning Strategy into Action.

ArchitectedERP: tuned to the challenges of *Services Thinking* in package-rich environments.
